

Dinosaur Fossils

Unit 4
Lesson 1

fossils

hardened remains of an animal or plant that lived long ago.

In the museum I saw some unusual fossils, including animal bones that had turned to stone.

hardened

became solid

After a while, the melted wax on the burned candle hardened.

scientist

people who study things in nature

Some scientists, people
who study things in nature,
dig for fossils.

difficult

not easy

We had a difficult time
solving the word problem.
It was not easy.

Tile A Word Problem

If the lions eat 8 pounds of meat each, how many pounds of meat will they eat in all?

$$\square \times \square = 4 \square$$

How many bird legs are there in all?

$$\square \times \square = \square 8$$

If 3 dozen new goats are added how many goats are there in all?

$$\square + 3 \square = \square \square$$

Bar Graph of Animals
(to be used with every task card)

Animal	Number of Animals
snakes	5
lions	8
birds	10
goats	4
sheep	6
fox	3
horses	2

extinct

no longer living

Dinosaurs are extinct.
They no longer exist.

dinosaur

extinct animal that lived long ago

Dinosaurs were large
reptile-like animals that
lived long ago.
